. . . the mark of a technical and craft publication devoted to better visual and sound reproduction. Excellence of editorial content, an outstanding feature of which is the very latest news of and views upon reproducing equipment and technique. Published exclusively for projectionists and affiliated technical personnel — the *only* technically-minded people in the theatre and a group that exerts profound influence upon the purchase of reproducing equipment, from screen to projection room. Extremely opinionated, with a definitely constructive editorial policy that delights its readers . . . and advertisers.
